and then descended the  
se, and accompanied by  
tered a closed carriage  
to the ferry to Regla,  
a train for Matanzas.

His departure was witnessed by a  
small gathering of people in front of  
the palace but there was no demon-  
stration of any sort.

Report Not Confirmed.  
Washington, Oct. 2.—The navy de-  
partment has no confirmation of the  
umor that the battleship Texas is dis-  
abled off the coast and believes that  
the vessel is now on her way to Cuba.  
As soon as the Texas and the Prairie  
arrive at Havana, the big battleships  
Kentucky and Indiana will be relieved  
and ordered north to complete their  
target practice. They are not needed  
as war ships in Cuba are merely serv-  
ing as boarding houses for the  
marines and sailors.

Taft Will Step In.  
Havana, Oct. 2.—Ex-President  
Palma today vacated the palace here  
and Governor Taft will take up his  
residence there during the week. The  
disarmament process is going on  
without a hitch in the vicinity of Ha-  
vana. While there is some question  
as to whether the disarmament will  
be accomplished in the Cienfuegos re-  
gion without some friction, no oppo-  
sition of consequence is anticipated.

The news from Cienfuegos province  
of Santa Clara is that 150 marines  
from Havana arrived there none too  
soon to avoid serious trouble. In  
Santiago province the revolutionary  
movement has caused lack of work  
and actual suffering.

Movement of Warships.  
Washington, Oct. 2.—Captain  
Couden, the naval officer at Havana,  
reported to the navy department to-  
day that acting under the instructions  
of Secretary Taft he had ordered the  
warship Kentucky to Matanzas from  
Havana and the Newark to Neuvitas  
to guard the railroad there.

DESTROYED BY FIRE

ONE MAN'S LIFE LOST.

All Animals Except Four  
Elephants and Two  
Horses Burned.

By Associated Press.  
Geneva, O., Oct. 2.—Cummings  
Wild West show, owned by Walter L.  
Main, was destroyed by fire in winter  
quarters here early today.

One man, an employee, was burned  
to a crisp. All the animals except  
four elephants and two horses that  
were in the building were consumed  
by the flames.

The loss will be about \$40,000 with  
no insurance. The fire is supposed to  
have started from a lighted cigar.

When his brothers found him he was  
dead.

OHIO LABORERS  
IN CONVENTION.

By Associated Press.  
Akron, O., Oct. 2.—The Ohio Federa-  
tion of Labor convened for a four days  
session this afternoon with 125 dele-  
gates present. The only business  
transacted thus far was the appoint-  
ment of committees and an address of  
welcome by Mayor Kempel, a union  
leader, with a response by President  
Henry Ott, of Cincinnati. Officers  
will be elected to-morrow.

retary of the J. L. Case Threshing  
company, has received a letter pur-  
porting to be from two men who either  
live in Milwaukee or Racine, demand-  
ing \$20,000 and threatening that un-  
less the money is paid over all of the  
Robinson family will be killed. It is  
believed these two men are living in  
Milwaukee and warrant was issued on  
John Doe proceedings.

POSTAL RATES

Discussed at Session of  
Commission

In a Brief Which Was Sub-  
mitted By American  
Publishers.

PURPOSE OF MEETING

Is to Determine Upon a  
Proper Remedy For  
Postal Deficits.

Publishers Show That News  
paper Rate Is Not  
the Cause.

By Associated Press.

New York, Oct. 1.—A brief on be-  
half of American newspaper publish-  
ers' association was submitted to the  
congressional commission on postal  
matters which is in session here and  
which is inquiring especially into  
what steps shall be taken by the gov-  
ernment to obliterate the large an-  
nual deficits in the postal revenues.  
due, it is alleged, to the handling of  
so many tons of second class matter  
at the rate of one cent per pound.

The brief is designed to show that  
the legitimate daily newspapers are  
not the cause of the deficit, and con-  
sequently are entitled to a continuance  
of the prevailing rate. It is asserted  
that while the government itself has  
to pay more than ten cents to carry  
the ten cent magazine from the pub-  
lishing office to the news stands and  
subscriber, it derives a profit from  
carrying daily newspapers. The brief  
points out that the recent deficits in  
postal revenues were anticipated by  
Postmasters General Smith and Payne  
because of the establishment of the  
rural free delivery system and that  
the deficits need not be viewed with  
apprehension. The brief suggests  
steps which may partially remedy the  
abuses which have furnished occasion  
for complaint.

The belief is that the transportation  
of newspapers at one cent per pound  
is profitable, as the express and rail-  
roads find a profit in it at rates rang-  
ing from a quarter of a cent to one  
cent per pound and carry very long  
distances and give good service.

The brief asserts that the situation  
as to postal deficits is not so bad as  
it appears at first glance. The coun-  
try is growing with amazing rapidity.  
The revenues of each year are always  
more than enough to pay the expenses  
of the previous year, so that an end  
can be put to deficits if a stop is put  
to the increase in expenditures. Com-  
paring the United States postal ser-  
vice to that of Great Britain it is  
shown that England pays \$441 to the  
mile for transporting mails, whereas  
the United States pays but \$196. Yet  
Great Britain make a profit of \$22,  
000,000 a year mainly due to the short  
haul and the dense population.

The brief states that the second  
class rate should be restricted to the  
dissemination of public information,  
and that its employment primarily for  
mercantile purposes should be stopped.

"IN THE HAY" TWO WEEKS.

By Associated Press.  
Warren, Ohio, Oct. 2.—Verna Chap-  
lin the girl at DeForest, who has been  
in a cataleptic sleep for about two  
weeks, is now awake.

The girl is able to talk with her  
parents, but she has said nothing  
about the carbolic acid burns made on  
her face while she was asleep.

TO SAVE SENOR FERRER.

By Associated Press.  
Madrid, Oct. 2.—The attorney gen-  
eral who originally demanded that  
the court impose the sentence of  
death on Senor Ferrer, director of the  
Modern School of Barcelona, for his  
connection with the attempt on the  
life of King Alfonso, May 1 last, now  
asks for a sentence of service in  
prison.

HIT IN A DENSE FOG.

By Associated Press.  
Chicago, Oct. 2.—In a dense fog  
today the limited passenger train on  
the Grand Trunk road due here at  
7:35 a. m., crashed into a suburban  
train at Elston, nine miles from this  
city, demolished three coaches and  
injured two persons. One of the in-  
jured, Charles R. Leiferman, of Chi-  
cago, is not expected to live.

SUITS TO OUST  
TWO COMPANIES.

By Associated Press.  
Topeka, Kas., Oct. 2.—Suits were  
instituted in the supreme court yes-  
terday to oust the Standard Oil com-  
pany and the International Harvester  
company of America, from Kansas.  
These suits were prepared and begun  
by Attorney General Coleman, under  
the Kansas anti-trust act and are the  
result of a long investigation.

WRECKED COACH  
TO BE BLOWN UP.

King Fisher, Okla., Oct. 2.—The  
smoking cars of the Rock Island pas-  
senger train which plunged into the  
Cimarron river at the bridge near  
Dover, on September 18th, will be  
blown up with dynamite by the rail-  
road company. The bodies of several  
passengers who were on the train  
at the time of the wreck and have  
never been accounted for, are believed  
to be in the coach, the interior of  
which is inaccessible on account of  
sand.

TREASURE IS FOUND

In the New York Home of

Miss Francis C. Robin-  
son, a Recluse

WHO WAS FOUND DEAD

Estate Was Bequeathed to  
Charitable Societies By  
Miss Robinson.

By Associated Press.  
New York, Oct. 2.—A special to the  
Herald from Hudson, N. Y., says that  
gold, silver and bills aggregating  
\$50,000 were found yesterday in the  
Robinson homestead, where Miss  
Francis C. Robinson, a recluse, was  
found dead, four weeks ago. The  
treasure was stuffed in pots, cups and  
vases, which were hidden in nooks and  
corners.

Miss Robinson left a will dividing  
her estate among four charitable so-  
cieties. It is expected that relatives  
living in New York will make a con-  
test.

NOT POSITIVE

That Al Adams Took His  
Own Life.

Coroner Harburger Sees  
Possibility of Murder  
In the Case.

NO MOTIVE IS FOUND

And There Is No Clue Upon  
Which to Base Suspicion  
of Foul Play,

But He Says People Do Not  
Suicide When They  
Awaken.

By Associated Press.  
New York, Oct. 2.—Coroner Har-  
burger in a statement early today gave  
an intimation that he was not entire-  
ly satisfied, that the death of "Al"  
Adams, the former, so-called, policy  
king, was the result of suicide. The  
coroner said:

"The police and all witnesses to the  
death of 'Al' Adams believe and are  
convinced that he committed suicide,  
but from the position I found his body  
lying over a chair and the head rest-  
ing near a cuspidor leads me in some  
ways to believe that there might have  
been foul play.

"I am now in doubt as to what mo-  
tive there was for a man of such  
wealth to take his life. The force of  
the shot went through his head and  
the ball hit the door embedding it-  
self in the wall, this shows how pow-  
erful the shot was that ended his life.  
"It is supposed that he got out of  
bed at 7:35 a. m. Generally people do  
not commit suicide when they arise  
from slumber. All the indications  
that he did commit suicide, but I am  
not thoroughly satisfied and I will ex-  
amine every witness and try and find  
out what motive there was for self-  
destruction."

AWFUL STENCH

Which Arises from the  
Mile of Debris

Tells of the Terrible Work of  
the Hurricane at  
Pensacola.

THE WORK OF RESCUE

Is Being Prosecuted With-  
out Growth of the  
Death List.

Weather Bureau Gives the  
Survivors a Fright  
With Forecast.

Pensacola, Fla., Oct. 2.—After a rest-  
less night Pensacola awoke this morn-  
ing to renew the work of rescue and  
rebuilding. Realizing the condition of  
the city, Governor N. Broward, of  
Florida, today wired the mayor of  
Pensacola, Charles H. Bliss, extending  
through him the sympathy of the peo-  
ple of the state to Pensacola, and  
stating that if the citizens desired he  
would immediately issue a proclama-  
tion calling upon the state and the out-  
side world for assistance.

The poor of the city are being well  
cared for, under the circumstances.

Probably not at any time since the  
hurricane have the people been given  
such a fright as this morning when of-  
ficial news came from Washington of  
the appearance of another weather dis-  
turbance off Cuba. Special weather  
bulletins were posted advising ves-  
sels not to venture out in the gulf.  
The list of dead has not grown, but  
there is a stench arising from the mile  
or more of debris along the water  
front just west of the city. It is be-  
lieved that in the piles of debris will  
be found many bodies. Rear Admiral  
Capps, chief of the bureau of construc-  
tion and repair, who came from Wash-  
ington, is at the navy yard super-  
vising the work of raising the wrecks  
and making temporary repairs.

No move has been made by the  
army to rehabilitate the deserted  
torts across the bay.

Captain Broadbelt, in command of  
the life saving station of which there  
is not even a board left, has received  
advice to care for the life saving  
crew in the city until Supt. Hatchins  
can reach here, when temporary quar-  
ters will probably be arranged on  
Santa Rosa island for the men.

Fort McRae has been swept almost  
off the earth with its new and modern  
batteries and disappearing guns, and  
it was here that five men were drown-  
ed and five others underwent such a  
harrowing experience that they are  
now chained in the army hospital,  
raving maniacs.

Red Cross Will Assist.

Washington, Oct. 2.—The American  
National Red Cross today decided to  
receive contributions for the relief of  
the storm sufferers in the gulf states  
and sent instructions to the pres-  
idents of all of the state branches of  
the organizations asking them to  
make announcement that they will  
receive money for the purpose in-  
dicated. Persons living in states  
which have no Red Cross branches  
may send their contributions to the  
national treasurer, Charles Hallaman  
Keop, assistant secretary of the U. S.  
treasury.

Casualties at New Orleans.

New Orleans, La., Oct. 2.—Forty-  
four light houses either swept into the  
sea and lost or the structures so badly  
damaged that no lights can be shown  
and four lighthouse keepers drowned  
during last week's hurricane is the  
summary of the report made by  
United States Lighthouse Inspector  
Sears, of New Orleans.

Mr. Sears did not investigate the  
light house losses between Mobile and  
Pensacola. He has not yet made pub-  
lic an estimate of the money loss in-  
volved.

The Weather Bureau.

Washington, Oct. 2.—The weather  
bureau today reports that the gulf dis-  
turbance is practically as it was Mon-  
day morning, except that the region  
of the low pressure has extended  
eastward to the south Atlantic coast.  
General rains are reported through-  
out the southeastern part of the country  
and so far as the weather officials are  
able to gather from the data at hand  
there is no present indication of fur-  
ther storm violence.

INSPECTORS ARE  
NOW IN SERVICE.

By Associated Press.  
Chicago, Oct. 2.—Three hundred  
inspectors entered upon their duties  
at the Chicago packing houses yes-  
terday under the new federal law.  
Judging from the first day's experi-  
ence, the inspection will be thorough  
and systematic.

"If there is anything wrong now, it  
is up to the government," said one  
packer with apparent relief.

That is the position of all the pack-  
ers. From statements made by Sec-  
retary James Wilson of the depart-  
ment, the government is willing to as-  
sume the responsibility.

APOSTLE DOWIE  
STAYS AT ZION.

By Associated Press.  
Chicago, Oct. 2.—A few hours before  
the time of his intended departure for  
Mexico, John A. Dowie today decided  
to remain in Zion City indefinitely.  
The sudden change of plans caused  
great surprise in Zion City where it  
has been commonly reported that  
Dowie was going away to make a final  
effort to regain his health.

John A. Lewis, one of Dowie's  
closest friends, who was to have ac-  
companied him on the Mexican jour-  
ney, announced for Dowie that the  
"first apostle's" health had taken a  
sudden change and that Dowie was  
much better physically than he has  
been in several weeks.

ON EIGHT PER CENT. BASIS.

By Associated Press.  
Boston, Oct. 2.—The directors of the  
American Telephone & Telegraph com-  
pany today declared a quarterly di-  
vidend of two per cent., placing the  
stock upon a regular 8 per cent. a year  
basis, as against 7 1/2 per cent. here  
before.

IN ANNUAL SESSION

The Irish League of Amer-  
ica Is Meeting In the  
Quaker City.

A TRIBUTE IS PAID

To the Memory of Commo-  
dore John Barry By  
the Delegates.

By Associated Press.  
Philadelphia, Oct. 2.—The annual  
convention of the United Irish League  
of America was opened in Withers  
spoon hall here today with about 700  
delegates in attendance. The anni-  
versary of the landing of Commodore  
John Barry of the American navy in  
Philadelphia in 1765 was observed by  
the convention before the business of  
the meeting was taken up, and a num-  
ber of addresses in tribute to the  
memory of the commodore were deliv-  
ered by delegates. Many prominent  
natives of Ireland are attending the  
convention. Among them being T. P.  
O'Connor, O'Donovan Rossa, the  
former leader of Ireland's cause in the  
English parliament, John Redmond,  
member of parliament, and Edward  
Blake member of parliament from  
County Longford, Ireland.

RACING LAW IS  
CONSTITUTIONAL.

Cincinnati, Oct. 2.—The Kentucky  
Racing Committee law was declared  
constitutional today and the injunc-  
tion against the committee was dis-  
solved and the case remained to the  
lower court for further proceedings by  
the United States circuit court of ap-  
peals in this city. The decision was  
announced by Judge Cochran. The  
judge said the whole case turned on  
the question of public welfare and  
read decisions in other cases where  
it had been held that limitations were  
advisable and necessary in permitting  
many kinds of business. As to mo-  
tives that led to the enactment of the  
present law the court did not find  
that these had been improper, public  
welfare being the deciding point. He  
discussed at some length the evils  
arising from betting on races and the  
maintenance of pool rooms in connec-  
tion with the business, holding that  
some limitation was proper and nec-  
essary, and that this particular law  
was entirely fair to all concerned.  
Even a law prohibiting the holding  
of some races would be valid on ac-  
count of the evils of pool rooms and  
certainly a law limiting the meetings  
would be according to public policy.

AMERICAN WON

The Balloon Race From  
Paris, France.

Lieut. Frank Lahm, a Can-  
ton, Ohio, Man Captures  
First Money

AND THE BENNETT CUP

An Italian Won Second, a  
Frenchman Third and a  
Briton Fourth.

Lahm Traveled Four Hun-  
dred and Fifty Miles  
With His Balloon.

By Associated Press.

Paris, Oct. 2.—All the uncertainty  
regarding the result of the balloon  
race for the James Gordon Bennett  
cup started from here on Sunday af-  
ternoon, was ended at noon today  
when a dispatch was received by the  
Aero club announced that the Hon. C.  
S. Rools and his companion, Col. Cap-  
ped, in the balloon Britania, landed at  
Sandringham, upland, at 6:30 last  
night, thus establishing that Lieut.  
Frank P. Lahm, Sixth Cavalry U. S. A., the American competitor in the  
race, who descended near Whitey yes-  
terday, in the balloon United States  
is the winner.

Signor Von Wiler, Italy, is second,  
Count De La Vaulx, France, third, and  
don. C. S. Rools, Great Britain, fourth.

Some anxiety was felt on account  
of Mr. Rools, it being feared that he  
had attempted to cross the North sea.  
The delay in reporting his descent is  
not yet explained.

Lieut. Lahm's friends are enthusias-  
tic over his victory. With the excep-  
tion of Senor Salomun, the Spanish  
pilot, Lahm was the youngest com-  
petitor. Since his assignment to the  
cavalry school at Saumur, Lahm has  
devoted much attention to aerostatics  
and his advance, as an aerial pilot  
has already attracted much attention.  
He made a dozen ascensions during  
the summer, the longest ascent being  
from Saint Cloud to Saint Brice.

The lieutenant took the place of his  
father in the race, the latter who is  
the best known American aeronaut in  
Paris, being called home on Saturday.  
Major Hersey's trip as Lieut. Lahm's  
assistant was quite accidental. A  
Frenchman had been selected as his  
assistant, but the Aero club France  
protested and Mayor Hersey who has  
just arrived here from Norway with  
Walter Wellman, leader of the Well-  
man-Chicago Record Herald expe-  
dition, seized on the chance. Lahm  
covered 450 against 370 miles covered  
by on Wiler his nearest competitor.

The beautiful cup presented for the  
competition by James Gordon Bennett  
becomes a trophy of the Aero club of  
America. The first cash prize of  
2,900 goes to Lieut. Lahm and the  
endurance medal to Mr. Rools, who  
was the longest in the air.

Was Up in the Air Some.

London, Oct. 2.—Later in the day  
the Aero club of England received a  
telegram announcing that Hon. C. S.  
Rools descended between Sandring-  
ham and the seat 6:30 last night 26 1/4  
hours from the time of his departure  
from Paris.

Lahm Canton Boy.

Canton, Ohio, Oct. 2.—Lieut. Frank  
P. Lahm is a native of this city he  
was the son of General Samuel Lahm  
who was a congressman from this dis-  
trict many years ago. Lieut. Lahm is  
the representative of a typewriter  
company and other American ma-  
chinery in Paris and occasionally re-  
turns to Canton for a visit.

CITY CANNOT COLLECT.

By Associated Press.  
Columbus, O., Oct. 2.—In an opinion  
rendered today for Charles Flummer-  
felt, steward at the state institution  
for the blind, Attorney General Ellis  
held that the city of Columbus could  
not collect the vehicle tax on vehicles  
owned by the state of Ohio and operat-  
ed in the city.

ARGUED FOR CONRAD.

By Associated Press.

Columbus, O., Oct. 2.—Charles M.  
Rogers, attorney for Frank Conrad,  
alias Castor, now awaiting execution  
for the murder of Headquarters Officer  
Dan Davis, at the H. L. Chapman res-  
idence, in the spring of 1905, made an  
argument in the supreme court today  
for a reversal of the judgment against  
the man.

man and beast; as the new building  
shuts off all possible chance of seeing  
an approaching train.

For the safety of the traveling pub-  
lic the city should require the railroad  
company to place a watchman at that  
crossing, both day and night. The  
writer was told this morning that a pe-  
tition was being circulated among  
south side people praying that a watch-  
man be stationed at that point.

While speaking of things dangerous  
to the general public, wouldn't it be a  
good thing for the city to compel the  
Erie, L. E. & W., C. H. & D., Pennsy  
and D. T. & I. and the traction line too,  
to level the approach to their tracks at  
street and sidewalk crossings to a  
level with the rails, also the space be-  
tween the rails? There are but two or  
three really safe crossings in the city.

Other cities do not permit the same  
state of affairs in this regard as exist  
in Lima, especially in south Lima.

**Taken to Hospital.**  
This morning, Charles Santos, of  
south Main street, was removed to  
the city hospital in Burks' ambulance.  
Mr. Santos has been a victim of malar-  
ia for several years, and his con-  
dition is considered alarming.

**Both Eyes Injured.**  
Yesterday afternoon, James Ken-  
nedy, of Second street, had both eyes  
injured while at his labor at the Solar  
refinery. Fragments of steel struck  
the eyeballs, and the wounds are most  
painful.

A coincidence of this accident is that  
James is the third member of that  
family to sustain similar injuries. J.  
B. Kennedy, the father, lost an eye in  
the same manner several years ago, at  
the old steel works; and Eliza, an aunt,  
lost an eye several years ago while  
working in the L. E. & W. shops, by  
a piece of steel penetrating the ball.

**Coming Wedding.**  
Invitations are out announcing the  
approaching wedding of Arthur  
Tippie, of west vine street, one of  
Lima's most highly educated young  
men, a school teacher by profession,  
to Miss Blanche Weaver, a charming  
young lady of Beavordam. The wed-

dam next Tuesday evening.

Mr. and Mrs. Tippie will go to West  
Virginia to live, as he has taken the  
incapacity of a school in one of the  
driving cities of that state.

**To Be Read in a Hurry.**  
Mr. and Mrs. John A. Mohr, of south  
West street, are entertaining a sister-  
in-law, Mrs. Amelia Requaith, of  
Greenville, O., and a cousin, Mr. Wm.  
Ostermeier, of Springfield, Ill.

After a pleasant visit with Toledo  
friends, Mr. and Mrs. Fred Hubbard,  
of south Main street, have returned.  
Saturday evening about forty near  
friends gathered at the home of Mrs.  
Spend the evening before a musical  
Albert Wagner, on Oak street, thus  
paying respects to a good neighbor  
before she removes to another part  
of the city.

New residents in south Lima are  
members of the N. C. Rayhouser fam-  
ily, who came here from Marion, O.  
They are located at 222 south Eliza-  
beth street.

Mr. and Mrs. Lewis Feighner, of  
south Broadway, have returned from  
Glenkarn, O., where they attended a  
family reunion.

Frank Ley went to Elgin on the  
morning Erie train. He is employed  
on the big pipe line.

The fire department was called to  
the home of Charles Baldwin, 1043  
Forest avenue, at 11 o'clock this morn-  
ing, to extinguish a flame on the  
kitchen roof. A defective flue caused  
the blaze, and damage was slight.

When Re-organization of the  
Board of Trustees Is  
Accomplished.

Governor Harris Says There  
Will Be No Investiga-  
tion at the "Pen".

By Associated Press.

Columbus, O., Oct. 2.—At noon today  
Governor Harris received and accept-  
ed the resignation of John Kaiser, as  
a trustee of the Athens hospital.

Governor Harris requested the resig-  
nation of Trustees William H. Wil-  
liams, of Columbus, democrat; John  
Kaiser, of Marietta and John W.  
Gregg, of Piketon, republicans. Trust-  
tees Roscoe J. Mauck, of Ironton, re-  
publican, and Chris McKee, of Noble  
county, democrat, will be allowed to  
continue because they had only been  
on the board a few weeks when the  
scandal with respect to the purchase  
of supplies came out.

The reorganization of the board of  
trustees makes it certain, it is said,  
the removal of Jerry Carpenter as  
steward, and there are expected to be  
numerous changes.

The reorganization is based on the  
report of the state board of charities  
of its investigation into the charges  
against the trustees and officers of the  
institution. The report sustained the  
charges of wholesale grocer, Charles  
C. Higgins, of Columbus, that the in-  
stitution was paying more for its sup-  
plies than he was willing to furnish  
them for and more than the ruling  
market price. There were also charges  
that no effort was made by the trust-  
tees to correct the abuse when the  
storekeeper complained that many of  
the supplies delivered showed short  
weight.

**Human Blood Marks.**  
A tale of horror was told by marks  
of human blood in the home of J. W.  
Williams, a well known merchant of  
Eco, Ky. He writes: "Twenty years  
ago I had severe hemorrhages of the  
lungs, and was near death when I be-  
gan taking Dr. King's New Discovery.  
It completely cured me and I have re-  
mained well ever since." It cures  
Hemorrhages, Chronic Coughs, Settled  
Colds and Bronchitis, and is the only  
known cure for Weak Lungs. Every  
bottle guaranteed by H. F. Vortkamp,  
druggist. 50c and \$1.00. Trial bottle

**CHINESE MUST GO.**  
By Associated Press.  
Burlingame, Cal., Oct. 2.—At a mass  
meeting of prominent citizens and union  
labor leaders here last night it  
was decided that 27 Chinese brought  
here by the Tallant company of As-  
toria, Ore., to work in a salmon can-  
nery at the mouth of the Bel river,  
must go. The people of the country  
are aroused. It is said that the Tal-  
lant company, which operates the can-  
nery, declares its intention to call on  
the governor for relief of any demon-  
stration is made against the Chinese.

**BISHOP SAYS HE  
WAS MISQUOTED.**  
Detroit, Mich., Oct. 2.—Bishop Chas.  
D. Williams, of the Episcopal diocese  
of Michigan, today, declared that he  
had been incorrectly quoted in the  
published report of his sermon Sunday  
to the Y. M. C. A. members, in which  
it was stated he said that the bible as  
the word of God, is the most prolific  
source of unbelief the church has to  
contend with.

"I am neither ultra-conservative nor  
yet a Robert Ingersoll, and I wish to  
emphatically deny the report," declar-  
ed Bishop Williams. "I did say that  
a certain view of the bible is a most  
prolific source of unbelief. To say  
that the bible is the most prolific  
source of unbelief, I would be the  
rankest kind of a Robert Ingersoll. The  
bible must be read thoughtfully and  
meditatively and a man with a con-  
science will find the word of God in it."

The Ladies' Aid Society of Spring  
street Lutheran church will meet at  
the home of Mrs. J. J. King, 263,  
south Pine street, Wednesday after-  
noon, October 3rd, to transact their  
regular monthly business. Every  
member is urged to be present.

HABEAS CORPUS  
CASE IS FILED.

By Associated Press.  
Columbus, O., Oct. 2.—A habeas cor-

the supreme court today. Assistant  
Prosecutor Froome Morris, refused to  
draw a nolle in the case of William  
Utz when ordered by the court to do  
so and was ordered to jail for contempt  
it seems to be a question as to whether

Very Surprising.

May Fern Took Fourth  
Place In First Heat of  
the 2:16 Pace.

The fall race meeting of the Lima  
Driving Park company started off this  
afternoon with the breaking of the  
track trotting record. The first heat  
of the 2:30 class trotting stake race  
was won by Quintell, bay stallion by  
Actell, owned by A. L. Walter, of  
Canal Dover, O., in 2:14 flat, lower-  
ing the track record one fourth of a  
second. The time in the first heats  
of the other events was also fast and  
at the hour of going to press this  
afternoon the crowd in attendance at  
the track is enjoying some splendid  
racing. The attendance at the open-  
ing was only fair and not up to the  
standard the program warrants.

The results of the first three heats  
were as follows:  
2:16 Class Pace.  
Billie Foster, W. S. Sweeney, El-  
wood, Ind., 1; Billy Cole, E. J. Curran,  
Oil City, 2; Hub Smith, E. E. Smith,  
Cambridge, O., 3; May Fern, G. W.

NO "PEN" INVESTIGATION.  
By Associated Press.  
Columbus, Ohio, Oct. 2.—Governor  
Harris said today there is no truth in  
the public statement that he proposed  
ordering an investigation of the peni-  
tentiary. "No complaints have come  
to me about the penitentiary and I  
have no thought of ordering an inves-  
tigation," said the governor.

"About the time I came into office  
there was something that came up  
with reference to the painting of the  
dining room; something about the  
action of the board ordering it not ap-  
pearing on the minutes. Further than  
this nothing has come to me in the  
nature of a complaint against the  
prison management."

From other sources it is learned  
that certain irregularities at the peni-  
tentiary may be brought to the atten-  
tion of the governor now that the  
matter is up for discussion.

## Iron-Ox

TABLETS CURE  
Constipation

The Secret of Perfect Health!

All the precepts of good health ever laid down by the wisest  
doctors can all be summed up in this one sentence,—“Keep your  
bowels active.”

For this simple function is the only way nature  
has of relieving the body of the poisons that accum-  
ulate in the system.

As long as the bowels are active and normal,  
these poisons are carried off from the system, and  
everything goes well, but at the slightest sign of  
neglect, troubles begin.

“Your off day” you call it perhaps. But if you  
neglect to set your bowels right as soon as they need  
help, you will find life seems to be made up entirely  
of “off days,” and not a single one in which you feel  
hearty and strong.

The trouble with constipation is that it gets  
worse and worse, if you neglect it. Slight ailments  
quickly run into serious diseases, and neglected bowels  
rapidly lead to that awful curse, chronic constipation.

To avoid constipation, it is only necessary to  
give a little thought to your bowels—not more than  
you need give to any other part of the body—just a  
little care, that's all.

50 Iron-Ox tablets in a handy aluminum pocket case, 25 cents. Extra large family size, [250 tablets], \$1.00. Trial package 10 cents. At all druggists  
or by mail prepaid. The Iron-Ox Remedy Company, Detroit, Mich.

When you feel the slightest need, take a dose of  
Iron-Ox Tablets—the next day you will be all right  
again, ready to go at your day's work with zest and  
energy.

There is this about Iron-Ox that you should  
understand. It is not like any other medicine which  
claims to cure constipation.

Iron-Ox does not purge or gripe—it does not  
upset the system, nor does it force its way violently  
through the bowel passages. It is easy and natural  
in its effects and leaves the bowels strong and normal,  
not weak and paralyzed like a cathartic pill does.

If you have a proper regard for your health you  
will never take another purgative pill as long as you  
live, nor allow any member of your family to do so.  
Stick to Iron-Ox Tablets instead. Ask your doctor  
or your druggist what Iron-Ox contains. He can  
obtain the formula from us, and will tell you that it  
is an honest, reliable remedy for constipation, either  
in mild or severe cases.

## STOCK MARKET

### Opened with Gains in a Majority

### But a Number of Issues Showed the Effects of Realizing.

## READING A FEATURE

### With Running Sales of Nine-teen Hundred Shares of Stock.

### Quotations on Live Stock, Grain, Produce and Provision.

New York, October 2.—Gains were  
in a majority in the stock market to-  
day, but a number of issues showed the  
effect of realizing. Reading was a  
feature with running sales of 1900  
shares at 154 and 154 1/4 compared  
with 153 1/4 last night and subsequent  
advance of an additional fraction.  
Wisconsin Central advanced five  
points, the common and St. Louis and  
San Francisco second bid 1 1/2.  
Brooklyn Transit 1 1/4 and Atchafalpa,  
Northern Pacific, Atlantic Coast line,  
Rock Island, Amalgamated Copper  
and Smelting about a point. Distillers  
securities recorded a point and Can-  
adian Pacific and Wheeling and Lake  
Erie large fractions.

The market closed weak at the low-  
est. A rebound in the Hill stocks dur-  
ing the final hour caused some recovery  
elsewhere in sympathy. The recov-  
ery halted about last night's level.  
Missouri-Pacific gained a point.

## Cincinnati Live Stock.

Cincinnati, Oct. 2.—Hogs, dull;  
butchers and shippers \$6.70 to \$7.50;  
common \$5.60 to \$6.25.

Cattle active, fair to good ship-  
pers \$1.65 to \$1.85; common \$2.00 to  
\$2.25.

Sheep steady; \$2.50 to \$4.25; lambs  
strong \$4.50 to \$6.50.

## The Wool Market

Boston, Mass., Oct. 2.—The wool  
market is active and steady. The  
larger mills have received big orders  
and the reason they have not pur-  
chased more wool is apparently not  
in their unwillingness to carry a heavy  
amount of raw material. The call for  
fleeces is steady. The demand for  
Ohio and Pennsylvania three-eighths  
continues unabated. For this grade  
34 to 34 1/2 cents is being paid freely.  
Half-bloods are also in request at 32 1/2  
to 34. Unwashed fine delaine is sold  
at 29 cents and up to 30 cents. In  
Michigan fleeces sales in three eighths  
are made 32 to 33 1/2 cents. Half-blood  
sells at 32 1/2 to 33 cents. Fine unwashed  
moves moderately at 25 cents.

## A Break in Cotton.

New Orleans, La., Oct. 2.—With a  
steady advance from the opening De-  
cember cotton reaching \$10.40, the  
cotton market broke 42 to 52 points  
on the reading of the government re-  
port on conditions today. The break,  
however, was only temporary and  
prices began to move forward again.  
Half an hour after the reading, a net  
gain of 13 to 16 points over the clos-  
ing figures of last night was recorded.

## Chicago Grain and Provision.

Chicago, Oct. 2.—Wheat inclined to  
bearishness today but active support  
by a leading bull checked the declin-  
ing tendency. The weakening influ-  
ences were lower cables, increased re-  
ceipts in the northwest and excellent  
weather conditions for the movement.  
December opened 1/4 to 3/4 cents lower  
at 76 1/2 to 76 1/4, declined to 75 1/2 to 76  
and then steadied around 76 cents.

Affected by the easier tone of wheat  
December corn sold off to 43 1/2 cents.  
Oats steady at 34 1/2.

January provisions opened quite  
pork at \$13.42 1/2; lard at \$7.87 1/2; ribs  
at \$7.15 to \$11.75.

Wheat—Dec. 75 1/2; May 79 1/4.  
Corn—Dec. 42 1/2; May 43 1/4 to 1/2.  
Oats—Dec. 24 1/2; May 25 1/2.

Pork—Jan. \$13.35 to \$13.75.  
Lard—Oct. \$8.87 1/2; Jan. \$8.75 to  
\$8.77 1/2.

Ribs—Oct. \$7.82 1/2; Jan. \$7.15.  
Cotton Quiet.

New York, Oct. 2.—Cotton split, closed  
quiet 30 points advance; middling  
uplands \$10.55; middlings gulf \$10.80;  
sales none.

## New York Finances.

New York, Oct. 2.—Money on call  
firm; 4 1/2 to 5 per cent. ruling rate  
5 1/2; closing bid 5; offered at 6  
1/2 time loans easier 60 days, 90 days and  
6 months \$5 to \$5 1/2 per cent.

## Toledo Grain Market.

Toledo, October 2.—Wheat—Cash  
75 1/2; December 77 1/2; May 81 1/2.  
Corn—Cash 49; December 42 3/4;  
May 42 5/8.

Oats—Cash 36; December 36 1/4;  
May 37 5/8.

Rye—No. 2, 63.  
Cloverseed—Cash, October 8 30 bid;  
December and January 8 25; February  
8 25.

## COTTON BULLETIN.

Washington, Oct. 2.—According to  
a bulletin issued today by the census  
bureau there had been 2,044,426 bales  
of cotton ginned of the present up to  
Sept. 25 last counting round bales as  
half-bales.

For the same period last year, 2,355,  
715 bales were ginned.

## GIVEN AN OVATION

Governor Taft Presided at  
the Annual Opening  
of University.

## PRESENTED DIPLOMAS

And Then Made a Notable  
Address to Concourse  
of the Students.

By Associated Press.

Havana, Oct. 2.—The annual open-  
ing of the University of Havana yes-  
terday afternoon was the occasion of a  
great demonstration of confidence in  
the provisional government, and of  
high appreciation of Governor Taft  
and the work President Roosevelt's  
commissioners have undertaken. Out-  
bursts of applause were a significant  
indication of the appreciation of his  
provisional government by the most  
thoughtful of the citizens.

Mr. Taft entered the large hall ac-  
companied by Assistant Secretary of  
State Bacon, and the American Min-  
ister Morgan and his personal aide,  
and was conducted by Dr. Berriel,  
rector of the university and Lincoln  
D. Seay, acting secretary of public  
instruction. Between lines of capped  
and gowned university professors to  
the presiding seat in the center of the  
platform. The applause continued  
throughout the time occupied by the  
governor's entrance and left no doubt  
of the genuineness of his welcome.  
The governor and those who accom-  
panied him were seated on the plat-  
form with the mayor of Havana, Julio  
De Cardo and other notable persons.  
After the annual address on the his-  
tory and progress of the university,  
which was delivered by Dr. Manuel  
Rodriguez, Governor Taft presented  
the diplomas to the successful stu-  
dents and then made a notable ad-  
dress which lasted half an hour, the  
spirit of which was that the inter-  
vention of the United States was un-  
deraken solely to assist Cuba and the  
Cubans, and that her future was de-  
pendent on her young men.

Mr. Taft spoke expressively in En-  
glish which many of his auditors did  
not understand, pausing at every sen-  
tence for its interpretation by Judge  
Schoenherich amidst applause and fre-  
quent college yells. He began by  
likening his position as chairman to  
the situation of the United States, which  
he had assisted in the University of Manila  
and said the Anglo-Saxon race had  
much to learn from the Latin race in  
courtesy, learning and ideals. When  
the Anglo-Saxon race was young and  
struggling with minor matters the  
Latin race was civilizing the world.  
The old Latin system of putting two  
on three men at the head of all the  
branches of the state was played out.  
The people whose money was in-  
vested, were better able to administer  
their own interests than any officials,  
however intelligent. In this matter  
the United States had two hundred  
years advantage of the Latins. Con-  
tinuing, the governor said:  
The United States is now able from  
her experience to help other nations  
toward helpful government.

Really delicious.

Quinsy, Sprains and Swellings Cured.  
"In November, 1901, I caught cold  
and had the quinsy. My throat was  
swollen so I could hardly breathe. I  
applied Chamberlain's Pain Balm and  
it gave me relief in a short time. In  
two days I was all right," says Mrs. L.  
Cousins, Otterburn, Mich. Chamber-  
lain's Pain Balm is a liniment and is  
especially valuable for sprains and  
swellings. For sale by all druggists.

## REMOVALS DECIDED UPON.

By Associated Press.  
Washington, Oct. 2.—The president  
has determined to remove from office  
Vivian J. Fagin, U. S. marshal for the  
southern district of Ohio upon the re-  
port of the civil service committee that  
he had been guilty of making political  
assessments and Marshal O'Neill, of  
the western district of Louisiana on  
the allegation of general indifference as  
disclosed by the report of a commis-  
sion of the department of justice.

## Whalebone

### Corsets

REDFERN STYLE "D"—an ex-

traordinary model for the form with  
full proportions—supporting the bust  
and abdomen with the aid of the lacing  
section.

A broad piece of coutille added to  
the corset skirt is placed so as to lace  
over the abdomen.

The peculiar responsibility reposes  
on the hose supporters, since they must assist on  
holding the corset in place and are so attached that  
they assist in drawing in the superfluous flesh from  
the abdomen toward the back. The double set of  
"Security" Rubber Button Hose Supporters is par-  
ticularly made for this model.

Baltimore, Oct. 2.—The second day  
of the campaign of the Masters and  
Mates of Baltimore, Chesapeake and  
Atlantic and Maryland, Delaware &  
Virginia Railway and Steamboat  
Lines against the companies for in-  
creased wages, opened with the ad-  
vantage which apparently on the side  
of the men. The four steamers which  
should have sailed last evening were  
still tied up at their wharves.

At the general offices of the com-  
pined companies the statement was  
made that they were receiving freight  
for some lines but not for others.

Shortly after 11 o'clock, a message  
was received at the headquarters of  
the Masters and Pilots from Captain  
Willard Thompson, general manager  
of the two steamboat lines asking for  
a conference with the men's commit-  
tee. Word was returned to Captain  
Thompson that the committee would  
wait upon him shortly. This was the  
first recognition of the committee on  
the part of Captain Thompson.

Purdy from the office of chief of po-  
lice and instructed Lieutenant Mich-  
ael Doyle to assume charge of the  
department. Notwithstanding his  
many dismissals, Purdy has refused  
to vacate his office, being upheld by  
Mayor Silas Cook. Factional trou-  
bles in the municipal government are  
the basis for the dismissals. Lieut.  
Doyle will not state whether he will

**COUNSEL FOR THAW**

Will Not Say That Insanity  
Will Not Be the De-  
fense Made,

**BUT NO APPLICATION**

Has Yet Been Made For Ap-  
pointment of a Lunacy  
Commission.

By Associated Press.

New York, Oct. 2.—Clifford Har-  
tridge, counsel for Harry Thaw, declin-  
ed today to say whether or not an ap-  
plication will be made to the courts  
for the appointment of lunacy commis-  
sion to examine Thaw. He was asked:

"Do you intend to make application  
for a board of lunacy in Thaw's case?"

Mr. Hartridge said:

"No application for such a board has  
been made. Will you say that no  
such application will be made?"

"I will not say whether it will or  
will not be made," the lawyer replied.  
"I am not divulging what my plans  
may be ahead of time."

"Will you say why it is that Mr.  
Thaw is submitting to almost daily  
visits from noted alienists if it is  
not to permit them to observe  
almost daily visit from noted alienists  
if it is not to permit them to observe  
his mental deficiency and to testify  
as to it before a lunacy board later?"  
was next asked.

To this Mr. Hartridge would make  
no reply. "I have absolutely nothing  
to say," he repeated, "except that I  
have never said that my defense would  
not be insanity."

**How to Cure a Cold.**

The question of how to cure a cold  
without unnecessary loss of time is  
one in which we are all more or less in-  
terested, for the quicker a cold is  
gotten rid of the less the danger of  
pneumonia and other serious diseases.

These celebrated garments are the highest  
type of feminine underwear, and are the basis of  
a true, graceful figure and correct fit in dress.  
They harmonize nature's inaccuracies and mould  
the figure to symmetrical, sinuous and beautiful  
lines, intensifying the beauties of women's outer  
draperies. They embrace the true, straight front  
model with graceful sloping hips, giving to the car-  
riage erectness, elasticity and grace. The new  
"Lengthening Waist," high bust models are mar-  
vels of grace, fit, comfort and common sense.

Where these corsets are worn, satisfaction is certain. They excel in de-  
sign, fabric, trimming, style and fit. Our prices, 50c to \$2.50. Buy one, try it.  
If you don't like it, bring it back and get your money. What's the use to pay

1. Ill., Oct. 2.—The suit of  
x and others against J. T.  
and others came up in the  
rt of Clarke county, at Mar-  
a hearing before Judge Kim-  
because of the fact that in  
the validity of an oil lease  
and the further fact that  
of this suit will have a bear-  
such future litigation, his  
was watched with interest by  
foreign operators who have  
seen this question passed  
in Illinois courts.

Christ and others first took  
so on the Moses Winters' farm  
later the same farm was  
H. E. Wilcox and others. Mr.  
claimed that the first lease  
null and void because no well  
on the premises within the  
time in the lease. An oil  
named Burke bought the  
the Winters farm and moved  
to the land and drilled a well,  
parties who hold the second  
out an injunction restraining  
marketing the oil from the  
cady drilled. Burke filed a  
to the bill and injunction  
his demurrer a lengthy argu-  
made by counsel for both  
he court took the matter un-  
decided until October 2.

## Habit-forming Medicines.

Whatever may be the fact as to the  
of the so-called patent medicines con-  
taining injurious ingredients as broadly  
published in some journals of more or  
less influence, this publicity has certainly  
been of great benefit in arousing needed  
attention to this subject. It has in-  
considerable measure, resulted in the  
most intelligent people avoiding such  
kinds of medicine, as may be fairly sus-  
pected of containing injurious ingredi-  
ents complained of. Recognizing this  
fact some time ago, Dr. Pierce of Buffalo,  
N. Y., took time by the forelock, as it  
were, and published a broadcast all the  
ingredients of which his popular medi-  
cines are composed. Thus he has com-  
pletely forestalled all harping critics and  
all position that might otherwise be  
urged against his medicines, because they  
are now of known composition. Fur-  
thermore, from the formula printed on  
every bottle wrapper, it will be seen that  
these medicines contain no alcohol or  
other habit-forming drugs. Neither do  
they contain any narcotics or injurious  
agents, their ingredients being purely  
vegetable, extracted from the roots of  
medicinal plants found growing in the  
depths of our American forests and of  
well recognized curative virtues.

Instead of alcohol, which even in small  
portions long continued, as in obstinate  
cases of disease, becomes highly objec-  
tionable from its tendency to produce  
craving for stimulants, Dr. Pierce em-  
ploys chemically pure, triple-refined  
glycerine, which of itself is a valuable  
remedy in many cases of chronic disease,  
being a superior demulcent, antiseptic,  
antifungal and supporting nutritive.  
It enhances the curative action of the  
Golden Seal root, Stone root, Black  
Cherry root and Bloodroot, contained in  
"Golden Medical Discovery." In all bron-  
chial, throat and lung affections attended  
with severe coughs, as will be seen from  
the writings of the eminent Dr. Crozer  
Coe, of New York, and Dr. J. J. Joffe,  
of Philadelphia, and Scudder, of  
Cincinnati; Ellingwood, of Chicago;  
Hale, of Chicago, and others who stand  
as leaders in their several schools of  
practice, the foregoing agents are the  
very best ingredients that Dr. Pierce  
could have chosen to make up his fa-  
mous "Discovery" for the cure of not  
only bronchitis, throat and lung affec-  
tions, but also of chronic catarrh in all  
its various forms wherever located.

deposit for the \$1,600 and against  
this I drew two checks, one for \$100  
and the other for \$10. I have committed  
no wrong."

The Democrat further says: "Sig-  
fried's reputation for square dealing is  
not very good. Since he has been in  
the Illinois oil field he has been in  
trouble both at Robinson and Mt.  
Carmel, the charge against him at the  
latter place being for issuing worth-  
less checks."

## Gets Good Looking Lease.

John F. Moran a well known oil man  
that moved to Marshall some time ago  
from Oil City, has secured an oil and  
gas lease on G. W. Byrns farm of  
153 acres in sections 1 and 2 John-  
son township, Clarke county. This  
farm is located right up against good  
producing wells and Mr. Moran should  
strike it rich, and his drilling de-  
serves to do so as he has spent sev-  
eral thousand dollars in drilling wildcat  
wells in this section of the county.  
Mr. Moran will start operations within  
a few days and he will keep opera-  
tions going as rapidly as the pipe  
line can take care of his product, as  
his lease is located along the new  
pipe line running from Martinsville  
to the Crawford county field.

## The Taubeneck Test Well.

The Ohio Oil company is still at  
work on the deep test well drilled on  
the Otto Taubeneck farm, in the north-  
west quarter of section 9, Darwin  
township, Clarke county, 3 miles  
south and 3 miles east of Marshall,  
and 3 miles northeast of Darwin a lit-  
tle hamlet on the Wabash river. The  
well is down about 1,400 feet and con-  
siderable trouble has been experienced  
in fishing jobs. The company expects  
to encounter the Casey sand at about  
1,500 feet. This well is being watched  
by all as it will determine whether or  
not there is a deep pay sand.

A mile or so north of the hamlet of  
York, on the Dr. Cullip farm, section  
29, York township, Clarke county, and  
2 miles south of the test well on the  
Taubeneck farm, unknown parties are  
at work on a test well. This venture  
is in the extreme southeastern part of  
the county and only a couple of miles  
from the Wabash river.

## Purchased More Ground.

The Ohio Oil company has pur-  
chased an addition to their tank farm,  
by securing the 80-acre tract from D.  
L. Wilhoit, being the west half of the  
northeast quarter of section 13, Casey  
township, Clarke county, and adjoin-  
ing the tank farm both on the west  
and south. The consideration is said  
to be \$8,000.

## Casey Township Wells.

In Casey township, Clarke county,  
on the Kimlin farm, section 23, John  
Murphy and others No. 2 is a 10 bar-  
rel pumper Nos. 3 and 4 same farm,  
are about the same size wells.

The Ohio Oil company's Nos. 7, 8,  
and 9 J. W. Clarke farm, Nos. 1 and 2  
George Kite farm, are 10 barrel  
pumpers. Same company's Nos. 4, 5,  
6, 7 and 8 W. C. Green farm, section 7,  
pumped 30, 70, 10, 10, and 10 barrels  
respectively. Same company's No. 6  
and 7 J. Larue farm, same section,  
pumped 10 and 20 barrels, and No. 5  
Wm. Larue farm, same section,  
pumped 15 barrels.

The Egyptian Oil company's No. 2  
Nal Miller farm, section 6, pumped 25  
barrels. The Casey Crude Oil & Gas  
company's No. 14 C. Fuqua farm, sec-  
tion 18, pumped 50 barrels. This well  
was shot with 250 quarts of nitro-  
glycerine, one of the largest shots yet  
put into an oil well in the field.

Same company's No. 3 Ruckle farm,  
same section, is a 5 barrel pumper.  
D. C. Davis has drilled in wells Nos.  
8, 9, and 10 McDonalds heirs farm, sec-  
tion 14, and they pumped 25, 40 and 60  
barrels.

The Mars Oil & Gas company's No.  
3 Jeff McCrory farm, section 23,  
pumped 30 barrels, and No. 1 J. T. Mc-  
Croy farm, section 14, pumped 10 bar-  
rels. Same company's No. 1 Pier-  
sall farm, section 23, is a 5 barrel  
pumper.

Bell & Snowdens' No. 4 T. J. Mc-  
Daniels farm, section 23, pumped 100  
barrels. Same firm's No. 4 A. R. Up-  
degraff farm, section 14, pumped 15  
barrels.

C. H. Parker & Co.'s No. 3 Johnson  
farm, section 36, pumped 35 barrels.  
Poley's Honey and Tar cures the  
most obstinate coughs and expels the  
cold from the system as it is mildly  
laxative. It is guaranteed. Do not  
risk any but the genuine in the yellow  
package. Wm. M. Melville, Old Post  
office corner.

## A CAGE FOR PIANISTS.

At the music show recently held in  
Madison Square Garden one of the  
most interesting exhibits was a sound  
proof glass cage for the piano, in  
which the performer "demonstrated"  
without disturbing others. It is sug-  
gested that this idea is worthy of the  
widest amplification. The making of  
noise has such an unaccountable fasci-  
nation for some persons that they are  
unable to overcome the habit. Many  
of them, however, would con-  
sent to sing, or play, or snore, as the  
case might be, in a sound proof glass  
cage if such a convenience were pro-  
vided.

The Society for the Suppression of  
Unnecessary Noises will agitate the  
installing of these cages, which will  
really be apartments in size, in all  
flat buildings now in course of con-  
struction. Private individuals will al-  
so be invited to add this modern im-  
provement to their homes, teachers of  
singing to put them in their studios  
and painless dentists in their "draw-  
ing rooms." It is a noble idea, worthy  
of its altruistic inventors. Its realiza-  
tion would preface the dawn of  
millennium.—Pittsburg Gazette Times.

If you haven't the time to exercise  
regularly Doan's Regulents will pre-  
vent constipation. They induce a mild,  
easy, healthful action of the bowels  
without gripping. Ask your druggist  
for them. 25c.

## FREE CUBA A FAILURE.

Intervention in Cuba is a policy we  
would prefer to avoid. But circum-  
stances indicate that escape from it is  
well-nigh impossible. Intervention  
spells absorption. If an American  
army once lands in Havana the Stars  
and Stripes will never again be lower-  
ed from the government buildings.  
And we are certain that the entry of  
American troops into Havana and the  
re-establishment there of American  
rule will afford the only guarantee of  
the firm and stable government in-  
stalled upon by the Cuban constitution  
itself.

Free Cuba may be written down a  
failure.—Brooklyn Eagle.

## WHERE CONGRESS SHIRKS.

General Fred Grant, referring to the  
canton question, boldly asserts that  
75 per cent of the courtmartial in the  
department of the east last year were  
due to the use of bad liquors obtained  
at "outside" resorts, and that fully 90  
per cent of the army's troubles arise  
from this source. But, as the congress  
seems determined to leave a share of  
the management of the army in the  
hands of the prohibitionist party and  
the W. C. T. U., no relief can be ex-  
pected.—Albany Journal.

## COLLEGE NOTES.

Night school at Lima College com-  
menced last night, with a good attend-  
ance. Prof. Condon has charge of the  
night school.

Ray Kilham entered school today to  
take a course in the Commercial de-  
partment.

The first college football team played  
the seconds yesterday in a hotly  
contested game. The seconds did  
some very fine playing.

The Misses Clara and Ella Mae  
Lougmeier, spent Sunday in Colum-  
bus.

Miss Merz, who fell and dislocated  
her wrist, returned home Saturday.  
She is a student in Prof. Adam's De-  
partment.

The Northwestern Ohio Ohio Teach-  
ers Association, will meet at Lima Col-  
lege, Oct. 28th.

Mr. Frank Taylor is attending the  
evening school.

Mr. McLaughlin is coaching the foot-  
ball team for the game with Heide-  
berg, Oct. 16th.

Quite a number of new students en-  
tered yesterday. The enrollment still  
continues to grow.

All are glad to see genial Lake  
Young back to school. Lake is a great  
favorite among the boys.

The barber shop in the basement is  
again in operation.

It is rumored that Prof. Blaser will  
take a vacation soon, and will not re-  
turn alone. Is the rumor well found-  
ed?

Prof. Jones, of the department of  
voice, will organize a choral society  
among the students of his department.  
Prof. Jones is very popular among his  
students.

Every table in the bookkeeping de-  
partment is now full, and Mr. Adkins  
has ordered a number of new tables  
to meet the wants of those who have  
arranged to enter soon.

Prof. Mikessell is not teaching in the  
night school. His new student keeps  
him at home.

Prof. Newcomer has a large even-  
ing class in the department of expres-  
sion. His department is open every  
evening.

Mr. Payton, whose daughter is at-  
tending the department of expression,  
will move into the Coss property on the  
corner of Jamison and Wayne streets,  
in order to be near the college.

Miss Burton, a student of Lima Col-  
lege will teach in Henry county this  
winter.

Mr. Bert Montgomery, a student  
from Pennsylvania, and graduate of  
the State Normal, says that he is much  
gratified with the progress he is mak-  
ing, and is highly pleased with the  
school and its faculty. This speaks  
volumes for Lima College since Mr.  
Montgomery is one of its ablest stu-  
dents. He has entered to complete the  
Scientific course.

Mr. Adkins is contemplating the pur-  
chase of a number of new machines  
for the typewriting department.

What is the matter with the clocks  
at the college? Each seems to be  
keeping different time. I presume to  
satisfy all comers.

Something is going to happen! Ask  
Prof. Blaser. Something has happen-  
ed! Ask Prof. Mikessell.

Miss Houser, of Wooster, entered  
school yesterday, to review a course  
in shorthand and typewriting.

Gymnastics alone can never give  
that elastic, ease and graceful fig-  
ure which comes by taking Hollister's  
Rock Mountain Tea. Tea or Tablet,  
35 cents. H. F. Vorkamp.

## CARD OF THANKS.

We desire to thank the neighbors  
and friends who kindly assisted during  
the sickness and death of my beloved  
wife; especially the Ladies of Hive  
No. 43, L. O. T. M., Ladies' Auxiliary  
to the Knights of St. John; Woman's  
Relief Corps and the members of the  
Lima fire and police departments and  
all others for their beautiful floral of-  
ferings.

BERT COATES and family.

## TEN O'CLOCK LIMIT.

We wish to again urge advertisers  
to furnish their copy early. The days  
are growing shorter; our circulation  
is growing larger and although a bat-  
tery of three linotypes is in constant  
use to sit up the type; a perfecting  
press is used to print the newspaper  
and thirty carrier boys make the de-  
livery, the Times-Democrat does not  
reach its readers early enough, if  
copy for advertisements is late com-  
ing in. In order that advertisers may  
receive the fullest measure of benefit,  
there must be prompt, regular de-  
livery of papers.

Advertisers will please file their  
copy before ten o'clock in the morn-  
ing for advertisements which they  
wish inserted upon that day.

When the space desired exceeds  
three columns, advertisers will please  
file the copy the evening preceding  
the date upon which they desire the  
advertisement to appear in order to  
insure its publication upon the de-  
sired date.

There is nothing that takes away, the  
beautiful, womanly charms like a  
plodding, stooped, awkward carriage.  
There is absolutely no excuse for that  
as long as Hollister's Rocky Mountain  
Tea is made. Tea or Tablets, 35 cents.  
H. F. Vorkamp.

## COZY HOMES.

The discovery of a new wick prin-  
ciple—so effective and yet so simple  
that it's a wonder no one thought of  
it before—has so revolutionized the  
manufacture of oil heaters and lamps  
that explosions, smoke and smell,  
caused by imperfect wick arrange-  
ment, may safely be regarded as  
things of the past.

This new wick attachment is to be  
found on the Perfection Oil Heater.  
Interesting tests show that, although  
the heater gives intense heat, the  
wick cannot be turned too high or too  
low—absolutely safety—thus being as-  
sured. One other feature which is  
worthy of mention is the smokeless  
device which prevents all smoke and  
odor. The portability of the heater al-  
so commends it for general household  
use. Heater is very light and can be  
easily carried about. Its simple opera-  
tion, usefulness in heating water and  
warming cold rooms make it a handy  
and useful article in any home. This  
heater is so far superior to other oil  
heaters, and is of such fair price that  
its universal adoption is but a matter  
of time.

The Rayo Lamp, which is made by  
the manufacturers of the Perfection  
Oil Heater, is without doubt the best  
lamp for all-round household use. It  
is equipped with the latest improved  
burner, and gives a bright, steady  
light at small cost. Suitable for any  
room, whether library, dining room,  
parlor or bedroom.

The Perfection Oil Heater and the  
Rayo Lamp form a combination that  
for real home comfort cannot be  
equaled. When consideration is taken  
of the simple operation of both heater  
and lamp, their absolute safety, the in-  
tense heat generated by the one, and  
the bright and steady light given by  
the other—all without smoke or smell  
—their value in any home, large or  
small, can be somewhat appreciated.

## VALUE OF SEaweeds.

The Use of Irish Moss as a Food and  
a Medicine.

Irish moss is used as a foundation for  
many desserts in the dietary kitchens  
where special dishes are prepared for  
invalids. An authority on the question  
of seaweeds states that scurvy, the  
dread of sailors, caused by the absence  
of potash in the salt meat which forms  
a part of every ship's provisions, would  
be ameliorated by the liberal use of sea  
moss jelly, which is rich in potash.  
Irish moss has always a place in the  
medicine chest of the old fashioned  
housewife, who pins her faith to its  
healing properties for colds, sore  
throats, etc. On the coast where the  
moss is gathered and also in the major-  
ity of Irish families the moss is boiled,  
strained, boiled again with lemon juice  
and sugar, until it is of the consistency  
of sirup. It is taken hot, a teaspoonful  
at a time, and is said to be a very good  
remedy for the maladies referred to.  
The Indians use the ashes of seaweed  
for granular swellings. It is also used  
by the Chinese, and so highly is it pri-  
zed by them both as a medicine and a  
food that it is gathered in some parts  
of the Pacific coast, principally at Mon-  
terey, and sent back to China.

The supply of seaweed of every de-  
scription seems inexhaustible, as that  
pulled or reaped from the rocks is re-  
placed by another and a more luxuriant  
growth the following year. On the At-  
lantic coast it is harvested only during  
the months from June to August, but  
at Monterey it is gathered every day all  
the year around.—Leslie's Weekly.

## SLOT MACHINES.

They Were Used During the Time  
and Reign of Rameses.

A correspondent of the Boston Her-  
ald writes: "It is true there are few  
things new under the sun. 'Air beds,' or  
what we call pneumatic beds, were  
used by the Romans before the Chris-  
tian era. The most remarkable duplica-  
tion of an old invention is the nickle-  
in-the-slot machine. This was first  
used during the time and reign of Ram-  
ses, in the eighteenth dynasty of  
Egypt, for the purpose of supplying  
holy water, that which had been bless-  
ed by the priests, to the people who  
desired it. The machine was urn shaped,  
with a small cylinder inside,  
through which ran a rod connecting a  
valve at the bottom of the cylinder  
with one at the top. These were oper-  
ated by a lever, which closed the bot-  
tom valve while opening that at the  
top, when the cylinder would fill with a  
fixed amount of water. To obtain the  
water a cup was placed at the outlet; a  
coin of three drachmae, equal to about  
75 cents of our money, was dropped  
into the 'slot' on to a scale pan in the  
end of the lever. This opened the cylin-  
der at the top and closed the lower  
valve, allowing the coin to slide off, the  
weight of water closing the top valve,  
opening the lower one and allowing the  
water to run into the cup. This is the  
basis of all patented slot machines of  
the present time and dates back to  
nearly 3,000 B. C."

Limited Bathing.  
Dr. Somerville Hastings, lecturing at  
the London Institute of Hygiene on  
"Cleanliness Is Next to Godliness,"  
said that people were much cleaner  
now than in the reigns of Queen Mary  
and Elizabeth, when the washing of  
clothes was unknown. Cotton was  
hardly in use, and linen was expensive.  
The poor wore rough woolen garments,  
which were never washed, and the bet-  
ter classes adorned themselves with  
silks and velvets, which were dyed  
when they would no longer pass muster  
in regard to cleanliness. It is re-  
corded, continued Dr. Hastings, that  
James I. never washed either hands or  
face during the period he posed as the  
wisest fool in Christendom, but con-  
fined his cleanliness within the narrow  
limits of wiping his finger tips upon a  
damp napkin.—London Telegraph.

## Fishing For Sheep.

When sheep were first introduced  
into Cornwall, England, a flock which  
had strayed from the uplands on to  
Gwithian sands were caught there by  
the tide and ultimately carried into  
St. Ives bay during the night. There  
the floating flock was observed from  
the St. Ives fishing boats, whose crews,  
never having seen sheep, took them for  
some new kind of fish and did their  
best to secure them both by hooks and  
lines and by netting. Those they se-  
cured they brought home triumphantly  
next morning as a catch to which even  
pilkchads were as nothing.

## The Serbian Swineherd.

In any Serbian village there is only  
one swineherd, and he leads all the  
pigs of the community. In the morn-  
ing he goes through the streets blow-  
ing his horn, and the pigs come out of  
their own accord and fall in behind  
him and follow him to the pasture. At  
night he brings them home, and they  
disperse to their sties in the same or-  
derly way as they pass the houses to  
which they belong. They require no  
attention and no singling out.

## Puzzled.

"Are you the proprietor of this res-  
taurant?" said the man who had wait-  
ed for his order until he became sleepy.  
"Yes, sir. What can I do for you?"  
"You can give me some information.  
I want to know whether you have told  
the waiter to stay away so that you  
can bring in a bill for lodgings against  
me?"

## Did His Share.

"Every human being should do his  
share toward uplifting the masses of  
his fellow men."  
"Well, I did my share. I ran an  
elevator seven years."

It is easy to make acquaintances, but  
difficult to shake them off.—Washing-

## Health.

The Use of Irish Moss as a Food and  
a Medicine.

Irish moss is used as a foundation for  
many desserts in the dietary kitchens  
where special dishes are prepared for  
invalids. An authority on the question  
of seaweeds states that scurvy, the  
dread of sailors, caused by the absence  
of potash in the salt meat which forms  
a part of every ship's provisions, would  
be ameliorated by the liberal use of sea  
moss jelly, which is rich in potash.  
Irish moss has always a place in the  
medicine chest of the old fashioned  
housewife, who pins her faith to its  
healing properties for colds, sore  
throats, etc. On the coast where the  
moss is gathered and also in the major-  
ity of Irish families the moss is boiled,  
strained, boiled again with lemon juice  
and sugar, until it is of the consistency  
of sirup. It is taken hot, a teaspoonful  
at a time, and is said to be a very good  
remedy for the maladies referred to.  
The Indians use the ashes of seaweed  
for granular swellings. It is also used  
by the Chinese, and so highly is it pri-  
zed by them both as a medicine and a  
food that it is gathered in some parts  
of the Pacific coast, principally at Mon-  
terey, and sent back to China.

## Disappointed by Report of Citizens

On Question of Appropriation For New Public Safety Building.

### THE PRESENT PLANS

Cannot Be Used Under the Appropriation Which Is Recommended.

Council Receives Committee's Report With a Vote of Approval.

Lima, O., Oct. 1st, 1906.  
To the Honorable, the City Council,  
Lima, Ohio.

Gentlemen—  
We, the committee appointed by your honorable body to consider the plans and specifications for the new fire and police station building, after a careful investigation of the same, and also thoughtfully considering your legislation on the matter, do herewith submit our conclusions:

The plans submitted by Architects Dawson & McLaughlin are of such proportions that an effort to materially reduce the total cost of the same to within the amount originally anticipated would be too great a task to be undertaken by this committee. We are of the opinion that the proposition of making the improvements as contemplated in your legislation now in force, should be adhered to as closely as possible so far as expenditures are concerned, and if the plans now being considered and thoroughly examined by yourselves and the committee cannot be made to fit within the appropriation, new plans should be drafted. The specifications for the material to be used in the proposed building should also be changed so as to allow competition in bids so that home products can be used as far as practicable.

We are unanimously of the opinion and strongly recommend that the ap-

propriation for the total cost of the new fire and police building shall not exceed the sum of \$25,000 and without hesitation state that a very suitable, acceptable and sanitary structure can be had for that amount.

Respectfully submitted,  
THEO. ROUSH,  
JOSEPH ASKINS,  
CHAS. H. CORY,  
J. D. S. NEELY,  
Committee.

I do hereby concur in all the matters contained in the foregoing report with but one exception, and that being the amount appropriated, which I believe should be \$27,500.

Respectfully,  
E. CHRISTEN.

The above report was submitted to the city council by the members of the special citizens committee last night, and while it was pleasing to the city councilmen whose position had been sustained by the special committee, it was a bitter disappointment to the members of the department of public safety, who had hoped, all along, that this special committee would view the proposed improvement as they do and would recommend an appropriation that would permit of the adoption of the plans of Architects Dawson and McLaughlin.

The adoption of the committee was received and filed and on motion by Dr. Bowers, a vote of thanks was tendered the committee.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the same became bald in six weeks' time. It must be apparent to any person that the only way to prevent baldness is the destruction of the germ which acts successfully accomplished by the application of Newbro's Hair-Police. Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Hair-Police.

# ONE MORE DAY

## May See End of Grand Jury Session.

Only a Few Witnesses Are On the List For the Morrow.

### COURT GAVE VERDICT

To Locomotive Works In Suit of Lovett For Damages.

Jury Cause For the Day Was One of Dispute Over the Costs.

In all probability there will be one more day only of the present sitting of the grand jury and so far as can be gleaned, there are no surprises planned when the judging body does report.

There are only a few witnesses, four or five in all subpoenaed for tomorrow, and none for Thursday. The jury after visiting the jail may possibly report before the noon hour, and not later than some time during tomorrow afternoon. It is stated that only petty crimes have so far, come before the body, and that the work is now well in hand.

### COURT GAVE VERDICT

After Plaintiff Had Finished, Jury Was Instructed.

After the plaintiff had concluded his case yesterday afternoon in the suit of Thomas Lovett against the Lima Locomotive and Machine company, Judge Cunningham directed a verdict for defendant. This is the second trial of this damage action, resulting from alleged injuries received by plaintiff while an employee of the company.

### Jury Cause Today.

The jury cause of today which may be settled without trial, is a dispute over costs, after a private settlement had been effected the action being that of Mary A. Herr vs the Redfern Shell-Oil company.

### BACK TO THE BENCH.

Judge Donnelly Will Sit in Court at Kenton.

The reports which have been circulated in this section to the effect that Judge Michael Donnelly of Napoleon, circuit judge of this district, was critically ill in the west have turned out to be false rumors. Judge Donnelly just recently returned from the west having been in San Francisco and other points looking after some of his interests, but says that he has not been ill seriously at any time and is at a loss to understand how the reports could have been started.

A telephone message was received at the county clerk's office in this city this afternoon from Judge Donnelly at Napoleon and in the course of the conversation the judge stated that he was not half as near dead as some of his friends might wish him. The message was occasioned by the announcement from the judge that circuit court would be held in Kenton on next Thursday—Kenton News Republic

A Certain Cure for Croup—Used for Ten Years Without a Failure.

Mr. W. C. Bott a Stai City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years and though they much feared the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequalled for croup and whooping cough. For sale by all drug stores.
